MAY QUIT ANY MOMENT

Resolution For the Adjournment of Congress Ready to Be Launched.

CONFEREES AGREE ON PHILIPPINES.

The Understanding Provides For Postponement of the Colonization Question and the Retention of Territorial Legislation.

Washington, July 1.—It is understood that the resolution for the adjournment of congress has been drawn in authoritative quarters and fixes 3 p. m. July 1 as the hour for final adjournment. It has not been introduced, but is held for prompt introduction if the present indications of finishing up business warrants it.

Conferees Agree.

Washington, July 1.—The conferees of the two houses of congress on the Philippine civil government bill have practically reached an agreement. The understanding provides for the elimination of the colonization question from the bill, thus postponing that question to another session for independent action. The senate conferees held out for their silver stand provision and the house men were just as firm in their contention for a gold standard. The house provision for a territorial legislature is retained in modified form. The Democratic members of the conference were not present, but it is not believed that they will make an effort to change the agreement.

Fighting Has Subsided.

Cape Haytien, July 1.—The street fighting here between the partisans of M. Firmin, the former minister of Hayti at Paris and General Alexis Nord, the minister of war of the provisional government, both of whom are candidates for the presidency of the republic, ceased at sunset. Admiral Killieck, who had supported M. Firmin by landing marines and firing on General Nord's followers, ordered the marines to return to their ship, which they did. They were accompanied on board by the partisans of M. Firmin. The admiral, who only used his small, rapid fire guns, threatens to bombard Cape Haytien in earnest. M. Firmin's residence and the house of his relatives have been completely pillaged. The Haytien warship Crete-a-Pierrot, on which the foreign consuls, under the protection of their respective flags, and M. Firmin sought refuge is still in the roadstead. She is seeking to obtain a supply of coal so as to enable her to go to Port-au-Prince.

Oregon Ashore.

Seattle, Wash., July 1.—The Harbor, with eight feet of water in her hold. On the voyage north the Oregon began leaking badly before she passed Vancouver island, and it was found necessary to keep her afloat. She reached Nome, however, with two feet of water in her hold and her machinery very badly out of repair. As soon as the passengers and cargo were landed Captain Seeley decided that he could make St. Michael, where the vessel could be safely beached and repaired. After leaving Nome the rudder post gave out and the steamer refused to answer her helm. He was compelled to put into Dutch Harbor and beach her.

Leach to Be Reappointed.

Washington, July 1.—Postmaster General Payne, Senator Hanna and Civil Service Commissioner Garfield had a conference with the president regarding the political charges made by Representative Burton of Ohio and others against Collector Leach at Cleveland. Mr. Garfield had just arrived from his home in Cleveland, where he investigated the situation and made his report to the president. Collector Leach is also here and has filed affidavits denying the charges. The result of the conference was that the charges against Mr. Leach and those mentioned in connection with him had not been substantial and that the collector should be reappointed.

Strikers Return to Work.

Pittston, Pa., July 1.—All the striking foreigners and pumpmen in this city, about 45 in number, reported for duty. The majority of them were given employment, but a number were stood aside until the imported men now at work could be provided for in other directions. The firemen refused to join the movement. In this district there are about 40 engineers and pump runners still out, but it is believed before the end of the week they will all be back at work.

A FLOATING PALACE.

Description of the Mayflower, the President's Residence Afloat.

New York, July 1.—The Mayflower, the official yacht of the United States, and ocean home of President Roosevelt, lies in the Brooklyn navy yard. In her new functions after undergoing alterations that cost \$50,000, she is ready for sea as one of the most luxuriously appointed vessels afloat. She was commissioned Saturday, but the date of her sailing from the navy yard has not yet been settled. Of the new Mayflower all the officers at the navy yard are proud, as they feel she will be a fitting residence for the chief executive of the nation when social or naval regulations call upon him to fly his flag afloat. In designing such a palace for use by the president, the United States departs somewhat from the old lines of Jefferson simplicity and takes her place with the other world powers in the matter of naval luxury. Neither the Hohenzollern nor any of the other royal yachts has state rooms and saloons more beautiful or costly than those of the president's yacht.

In the four weeks just passed, the Mayflower has been refitted and refurnished completely from stem to stern. The president's quarters are situated aft on the main deck and include six staterooms for the exclusive use of himself, Mrs. Roosevelt and their children. The two larger of these staterooms have been very lavishly furnished. Special attention has been given to the decoration of the bulkheads and the paneling, which are covered with expensive silk in many colors.

The smoking rooms occupies the after portion of the spar deck and is furnished in teak, with a floor of fancy woods, inlaid in mosaic and waxed. Behind the officers' quarters below the main deck is the president's dining saloon. It extends in width of the ship and is furnished in white and gold, Louis XIV style.

Before the Spanish-American war the Mayflower was the property of Mrs. Ogden Goelet. It had been built for her husband, on the Clyde, at a cost of \$800,000. When Mr. Goelet died his widow at one time contemplated selling the yacht to the king of the Belgians. At the outbreak of the war, the Mayflower was bought as a torpedo boat destroyer at a cost of \$450,000. The vessel is 321 feet over all, 275 feet on the water line.

When Governor Allen was sent to Porto Rico, he was given the Mayflower, after she had been outfitted at considerable expense as his official yacht. The Mayflower, which now replaces the Dolphin, is under command of Lieutenant Commander Albert Cleaves.

In the Senate.

Washington, July 1.—When the senate convened Mr. Gallinger (N. H.), chairman of the committee on pensions, made a brief statement of the work done by the pensions committee during the present session. It showed that the bills relating to pensions introduced in the house aggregated 7,518, while the aggregate number introduced in the senate was 2,552. The total number passed by both the house and the senate was 1,151. A resolution offered by Mr. Morgan, calling on the secretary of state for a statement of expenditures for the isthmian canal commission was adopted. The senate insisted on its amendment to the naval appropriation bill and the following conferees were named: Messrs. Hale, Perkins and Tillman.

Strike of Machinists.

Omaha, July 1.—The order authorizing a strike of all the machinists on the Union Pacific system went into effect at 10 o'clock a. m. There were few men left to walk out in Omaha and Council Bluffs, however, the machine shops having been closed down Friday night. No reports were received from the outside shops, but it is understood that the order issued from the executive committee of the International Machinists' union merely authorized the strike and that a vote will be taken by local unions before the actual walkout occurs. There will be about 1,700 men affected by the strike.

Two Men Killed.

Denver, July 1.—George Sperling of Graham, Mo., and George Bates of San Francisco, were instantly killed by a bolt of lightning on a ranch four miles north of Arvada. The foreman of the ranch was about to call them to dinner when the lightning struck them.

Senator Foraker Better.

Washington, July 1.—Senator Foraker, who was taken ill at the White House, was very much improved and was able to come down to his private office. He had a slight attack of peritonitis.

LOSS FALLS ON FARMS

Growing Crops In Vast Expanses of Bottom Lands Are Ruined.

STREAMS OUT OF THEIR BANKS.

Continuous Rains In the Middle States Have Played Havoc With Agricultural Interests as Well as With Many Railroads.

St. Louis, July 1.—A low estimate placed on the damage wrought within a radius of 150 miles of Alton, Ills., by the storm of wind and rain that prevailed is \$1,000,000. While the farmers are the heaviest losers, the railroads also suffered severely. In the American bottom farming district the farmers are ruined.

Woodriver, a small and usually harmless stream, overflowed its banks early and the farmers in the vast expanse of bottom lands were forced to get into the upper stories of their homes to save their lives. Their houses were flooded. After spending a night full of peril they watched the daylight come in, only to see that their crops had been washed away.

Railroad traffic through the bottom lands is completely shut off, and will not be re-established before some hours, as the washouts are such that they cannot be easily or rapidly repaired.

Among other concerns that suffered is the big plant of the Western Cartridge company at East Alton. This was flooded, and President F. W. Olin states that his loss will not be less than \$5,000, and may be more. Reports received from the Piasa Creek district say that the farmers in their anxiety to get their stock out of the valley into the hills, neglected to save any of their shocked wheat, and lost all. All the crops there are lost.

Crops Ruined.

Danville, Ills., July 1.—A heavy rain and wind have ruined the oats crop and seriously damaged wheat and corn. The lowlands are several feet under water, and crops destroyed. Vermillion river is out of its banks and higher than for 30 years. All crops on bottom lands are practically ruined, and fences, small buildings and considerable live stock have been carried away. No estimate of the amount of damage can yet be made.

STRIKING MINERS

Invited to Return to Work by the Employing Company.

Hazleton, Pa., July 1.—Copies of the following notice were distributed among the striking miners at the Harwood colliery: "With a view of ending what we deem a hopeless and uncalled for strike, an opportunity of resuming work at our Harwood colliery is hereby offered to our employees. Let every inside man who wants to begin work quietly notify the general inside foreman and let every outside man notify the outside foreman. When a majority of our adult inside and outside men signify their desire to begin work this colliery will be started. Foremen will not make known the names of those applying for work."

Several hundred strikers stationed along the roads leading to the drift on colliery of Coxe Brothers and Company, turned back all men who reported for work with the exception of the clerks and passenger crews of the Delaware, Susquehanna and Schuylkill railroad. The strikers and the Coxe deputies came together on the Freeland borough line. When Sheriff Jacobs arrived the men dispersed.

News From the North.

Port Townsend, Wash., July 1.—The steamer Centennial reached port nine and one-half days from Cape Nome, bringing news of the safety of the steamers Jeanie and Portland. She also brought word that the story of the loss of the United States revenue cutter Thetis is untrue. The steam whaler Belvedere arrived at Cape Nome on June 20, and reported that the Jeanie and Portland were sighted in the ice pack on June 17, 80 miles north of Cape Prince of Wales and the Diomede islands. The revenue cutter Thetis was standing by the imprisoned vessels. The Jeanie and Portland were not injured by the ice and there were good prospects of them getting away.

Denver, July 1.—The tenth triennial convention of the International Sunday School opened on the last day of the session with an address by C. H. Daniels of Boston, one of the secretaries of the American board of foreign missions on the subject of promoting intelligence and the spirit of giving in missionary work. He said that the greatest gifts to the world were the givers.

SENATOR ELKINS

Declares the Secretary of War Has a Frosty Intellect.

Washington, July 1.—Mr. Elkins (W. Va.) addressed the senate in support of his resolution providing for the annexation by the United States of the island of Cuba. Mr. Elkins said that his resolution had been misunderstood. It had no bearing upon Cuban reciprocity and was not intended to have any. It simply voiced in concrete from his judgment that Cuba ought to be annexed to the United States and the sooner the better for both countries. The resolution did not suggest annexation of Cuba in an offensive way. It provided that the Cubans must take the initiative and only after they had asked for annexation could the United States act. For nearly a century, he said, the annexation of Cuba to the United States had been the ambition of American statesmen from Jefferson to McKinley had favored annexation, and he thought this was an opportune time to carry into effect the well defined wishes of a majority of the people of Cuba and the United States in regard to annexation. It is in the interest of both countries. It is claimed that annexation would destroy the promising growing of beet sugar industry of the United States. Not so, however.

Mr. Elkins in closing said too much had been said about what we owed to Cuba and how much depended upon our relations with the island. He added: Our able secretary of war, who conquers with his cold and frosty intellect and never had a hot thought, never swayed by passion in his life, deliberately wrote these words in his report: The peace of Cuba is necessary to the peace of the United States. Now, who on earth believes that? He continued to ridicule the idea, which, he said, permeated statements in the senate, saying that it was extravagant talk. It is all through the country. It is an epidemic."

Another Trade Consolidation.

Philadelphia, July 1.—Plans are being formed for a consolidation of the glazed kid leather interests, including factories in Philadelphia, Wilmington, New York and Lynn, Mass. It is said a new corporation will be organized in a few weeks with a capital of \$50,000,000. There are about 50 factories in the proposed combination and the yearly production exceeds \$25,000,000.

Unanimous Report.

Washington, July 1.—Representative Richardson of Tennessee and his Democratic associates on the special committee which investigated charges of bribery, etc., in connection with the Danish West Indies purchase, have decided not to make a minority report and the report of the committee will be unanimous that there was no bribery.

Lancaster, O., July 1.—Isaac Claypool, 80 years, died from effects of carbolic acid applications to his limbs, the attendant having mistaken the acid for liniment. The flesh from the knees down was frightfully burned and the unfortunate man died in terrible agony. The colored attendant is badly burned.

Salt Lake City, Utah, July 1.—Alexander A. Robertson, member of the city council and paying teller in Wells Fargo's bank, who disappeared last week, and whose accounts at the bank showed a shortage of \$85,000, has given himself up to the police and is now in jail.

PUT UNDER PRESSURE.

Everything Squeezed Out Except the Bare Facts.

The largest cotton mill in existence is to be built near Kansas City.

Henry Canfield, 75, killed his wife, 70, and then suicided at Morrison, Ills.

Heavy rains have drowned out the crops in Ohio as well as adjoining states.

Judge A. C. Thompson has decided that Oxford college at Oxford, O., does not need a receiver.

The appropriations of the Fifty-seventh congress, including the \$40,000,000 for the isthmian canal, will reach a billion dollars.

Admiral Dewey concluded his testimony before the senate committee, declaring too much had been made of Aguinaldo in America.

The repeal of the war revenue taxes reduced taxation \$73,250,000, and is said to be the largest single reduction of taxation ever made in this country.

Jesse James' body, which has been buried for 20 years in the dooryard of the old James homestead near E. C. Elsner Springs, Mo., was disinterred and buried in the cemetery at Kearney, Mo., beside the body of his father and wife.

ARE NO BAD SYMPTOMS

Condition of King Edward Reported by Doctors as Satisfactory.

DRESSING OF WOUND IS PAINFUL.

His Majesty Is Doing So Nicely That Queen Decides to Ride in Parade to Review the Troops.

London, July 1.—The noticeable excitement during the past week outside Buckingham palace at the hours bulletins were posted, was entirely absent. The sanguine impression created by the doctors' reports Saturday and Sunday was maintained by the salient phrase in the latest bulletin, 'No bad symptoms of any kind.'

At noon the following statement was given out at the palace: There is no cause for alarm in the distress caused by dressing the wound. This occurs at least twice daily. The wound, which is of considerable depth, is dressed from the bottom. The dressing causes his majesty considerable pain, which he has borne with great fortitude. In fact, his majesty's courage and patience call for the greatest admiration. The king was much benefitted by the change to the couch Sunday, on which he stayed for a few hours. The electric fans have proved of great value in keeping down the temperature of the apartment. The queen is in constant attendance in the sick room, but the utmost quiet is enforced. The king occasionally sees his children, but the interviews are of short duration. No matters of state or business are allowed to be submitted to the king, who is also debarred from reading his correspondence. Neither Drs. Laking, Barlow nor Treves have left the palace since the operation, except for an occasional hour."

This statement was issued with the view of correcting the numerous unfounded stories published with circumstantial detail regarding what is alleged to transpire in the sick room. The cheerfulness of the public is apparently fully shared by the members of the royal family. The Prince of Wales went out riding and both he and the princess witnessed from the palace windows with evident interest a march past of the guards. The stock exchange reopened with a very strong tone on the satisfactory news regarding the king's condition. Consols rose 7-16ths. Other departments reflected the improved feeling.

With the view of compensating the sightseers so far as possible for the disappointment of last week, the reviews of the colonial and the Indian troops will be accompanied by a certain amount of pageantry. The queen's anxiety has been so much allayed that she definitely decided to occupy the first carriage in the royal procession in which other members of the royal family will participate, as well as the foreign princes who are still in London.

Minnesota Republicans.

St. Paul, July 1.—Many delegates have already arrived for the Republican state convention and all of the candidates have appeared at headquarters. Governor Van Sant's renomination has been assured for several months and it is considered probable that the platform will take cognizance of his action in seeking to enforce the law against railroad combinations. State Treasurer Block and Attorney General Douglass will also be renominated by acclamation. The closest contest is that for state auditor. For lieutenant governor Ray W. Jones is the only avowed candidate.

Senate Bills Passed.

Washington, July 1.—Bills were passed as follows: To prohibit the killing or taking of seals, porpoises, whales or marine animals or fish of any kind in the waters of the United States by means of explosive materials; to extend the time for the construction of a bridge across Corpus Christi channel, Texas, by the Arkansas Harbor Terminal Railway company; to establish regulations in the District of Columbia during the national encampment of the G. A. R. in October, 1902.

Cold Water Advocates.

Peoria, Ills., July 1.—The Prohibitionists are gathering in large numbers for the annual state convention which opened here. Among the leaders here are Hale Johnson of Chicago, who is state chairman, Hon. H. P. Patton of Pennsylvania, Oliver W. Stewart, chairman national committee, and John G. Wooley. A lively fight is predicted on the adoption of a platform.

DEMOCRATIC TICKET.

For Congress,
JAMES N. KEHOE,
of Mason.

For Judge of the Court of Appeals,
THOMAS H. PAYNTER,
of Greenup.

July 1st, 10 a. m.—Fair and warmer to-night.
Wednesday showers, with rising temperature.

THE first session of the fifty-seventh Congress has been scattering the surplus with a prodigal hand. The total appropriations are near the billion-dollar mark.

If the coal operators can only keep the strike going long enough they can make so much money at the higher prices that they need not care whether they ever mine another ton or not, says the Boston Globe.

NINETEEN prisoners convicted at the recent term of the Fayette Circuit Court were taken to the penitentiary this week. It would be a good thing for the rest of the State if Lexington would start a little prison of her own. She could fill it by corralling her murderers and other criminals.

THE Minneapolis Tribune very sensibly concludes that States should give up the right to attempt to pass laws against trusts and all join in the effort to secure proper regulation and control by the Federal Government. No other control can be entirely effective, and it has been made plain now that no other is legal. Corporations have outgrown State jurisdiction.—Public Ledger.

Turning the matter over to Congress would just suit the trusts, as long as Congress is Republican.

THE disclosures growing out of that suit against the steel trust are interesting. The names of the stockholders of the combine are now known. With few exceptions probably, all of them are millionaires. It would probably be next to impossible for an ordinary man of wealth to get hold of any of the stock. The "pickings" are too rich, and the greedy trust robbers will hold on as long as the trust continues to divide \$100,000,000 a year among them.

Mammoth Cave Excursion.

Personally conducted excursion to Mammoth Cave July 22nd. Train leaves L. and N. depot at 5:45 a. m., arrives at the cave at 9 a. m. July 24th, arrives Maysville 8:15 p. m. Round trip fare from Maysville to Myers inclusive only \$5.50. The special low rate of \$6 has been secured for this party for board at Cave Hotel for time mentioned above and long and short routes in the cave. As party is limited early application should be made for tickets.

The Rev. Fred D. Hale, formerly of Kentucky, has resigned the pastorate of the Boles Chapel Baptist Church at Kansas City, because of ill health.

THE Camden Interstate Railway Co. sold to a Pennsylvania syndicate all their electric lines in Huntington, Central City, Ceredo, Kenova, Catlettsburg, Ashland and Ironton. The deal also embraces the electric light plants and parks in Ironton, Ashland and Huntington. The consideration is about \$2,000,000. It is said this is the initial move to construct an electric line along the river from Cincinnati to Pittsburgh.

Turkish TOWELS!

The culmination of the bath is the rub down and that's when the towel is an essential factor. These Turkish Towels, 20x45, will be found exactly suited to the purpose and they are only 15c. each. Another grade, and larger, comes at 25c. But Turkish Towels differ most in size and finish. All are jolly bath helps. We have bleached and unbleached in both sizes—of course you know full bleached towels drink up water fastest, while some claim the unbleached wear longer. Ever try Turkish Towels for bath mats? They are more dainty and comfortable than any other rug to step out on.

Huck Towels!

Heavy Devon Huck, bleached, washed, and hemmed for immediate use. Just arrived and it's only fair we give immediate notice for we haven't seen better towels at 15c, while these are only 10c.

Damask Towels!

Selling handsome, pure linen, durable damask towels for such a price looks like a mercantile murder. However, since the responsibility isn't yours, you'll feel no remorse in buying liberally of the hemstitched or fringed, drawn-work towels whose beauty justifies 35c., but whose price is only 25c.

D. HUNT & SON

A GOOD STRIKE.

Fine Quality of Oil Found in the Well at Bridgeville, Bracken County.

BRIDGEVILLE, Ky., June 29.—The test well being bored on the Galbraith farm near this place by the H. D. Frisbie Company has proven a success beyond all expectations. A fine flow of oil was struck at 210 feet in the Trenton rock, the Trenton first being struck at the depth of 185 feet. It was the intention to go deeper, but the jars on the drill cracked and work was shut down for a few days, but on Saturday the brazier was let down and about fifty feet of oil was found in the well. It was running in with every indication of rising to the top. Mr. Smiley Anderson, who is in charge of the drilling, has had twenty years' experience in oil development in the Indiana and Ohio Trenton rock fields. He says he is satisfied that the horizon level here will be Trenton formation and the outlook and prospects for a fine Trenton rock oil field are the best and most flattering he has ever seen. The oil is green and burns well in lamps as it comes from the well. Mr. Anderson says he is unable to account for the color or quality of the oil coming from Trenton rock.

Mr. H. D. Frisbie, of Cynthiana, who is at the head of the company and has been in the Kentucky oil fields for over a year, says this well is as good as the first well bored in Bath County by the Mt. Sterling Gas and Oil Company, and if shot would probably yield twenty-five to thirty barrels a day. The company has 25,000 acres leased in Robertson, Bracken and Mason counties, and other wells will be sunk as rapidly as possible.

HARRISON DEATLEY.

Former Resident of Maysville Passed Away at Portsmouth.

The remains of the late Harrison Deatley were brought here from Portsmouth Monday and taken to Olivet Church where they were laid to rest during the afternoon, the funeral service being held at 2 o'clock. His death occurred Friday night at his home in Portsmouth.

The Portsmouth Times thus refers to him: "He was born in Mason County in 1841, and was married there during the war to Miss Amanda Campbell, who survives, as also the following children: Millard, Charles, Cora and Ivy Forest, of this city, and Mrs. Jas. Matthews, of London, Mrs. Simon Kegley and Mrs. James Allen, of Granville, Ky. One brother, Henry Deatley, and one sister, Mrs. B. P. Pollitt, of Tollesboro, Ky., survive. Mr. Deatley came to Portsmouth two years ago from Maysville, Ky., and in that time he and his family made many friends. He was a member of the Methodist Church, South, and a man of many good traits of character."

Fourth of July Rates Via the C. and O.

On account of the Fourth of July, the C. and O. will sell round-trip tickets at rate of one fare, Maysville to all stations, Gauley, W. Va., to Cincinnati, inclusive. From Maysville to stations east of Gauley one fare to Gauley plus one and one third fare Gauley to destination, except no tickets will be sold to stations on the Washington division. Dates of sale July 3rd and 4th; return limit July 7th.

Excursion tickets will also be sold to certain points on the Big Four, B. and O. S. W., C. H. and D., C. I. and L., Ill. Cent., L. and N., L. S. and C. N. O. and T. P. roads at greatly reduced rates. The Louisville rate will be \$5.25.

Nabisco sugar wafers—Calhoun's.

River News.

The White Collar Line has started Captain Davey, late of the Bonanza, out as freight solicitor to try and get rid of the Gould.

The Virginia will resume her trips in the Cincinnati-Pittsburg trade this evening, and is due up to-night. She will be followed Thursday night by the Keystone State.

The coal combine's mammoth new towboat, the Sprague, is receiving her finishing touches at St. Louis. The Sprague is 318 feet long over all; beam 65 feet, depth 7 feet. She has three sets of Hopkins boilers and two auxiliary sets. Her engines are compound. The low pressure cylinders are 6 feet in diameter, high pressure cylinders 3 feet in diameter, stroke 12 feet. Her shaft is 40 feet long and 30 inches in diameter, the largest shaft ever put on a river steamer, the wheel being 30 feet in diameter, with 40 feet buckets.

ROUTED FOUR OF 'EM.

Rufus V. Dryden, of the Sixth Ward, Gets the Best of a Quartette of Ohioans.

Mr. Rufus V. Dryden, of the Sixth ward, owns a farm near Ellsberry, several miles north of Aberdeen. A man named Scott owns an adjoining farm, and there was some trouble not long ago over a narrow strip of ground, which the Scotts had been using for a pass way, but which fell to Dryden when a survey of the land was made.

Scott has four sons, and it is said they have been "laying for" Dryden ever since the dispute. Last Saturday Mr. Dryden visited his farm, and during the day the four brothers "met up" with him and proceeded to "square things."

One of the quartette sailed into Dryden with a heavy club, but the latter seized the weapon and dealt Scott No. 1 a blow that fractured his jawbone. Scott No. 2, by this time, joined in the melee and was laid out with a blow over the eye. Scott No. 3 next tackled Dryden, with the result that he is now nursing two fractured ribs, one good rap having settled him. When Dryden looked around for Scott No. 4, the latter was beating a hasty retreat.

Mr. Dryden is nursing a badly swollen hand as a result of a blow dealt him in his clash with Scott No. 1.

It is reported the Scotts appealed to Gov. Nash for a requisition for Dryden, but the Governor wired them to let Rufus remain in Kentucky.

Must Have Been Awful.

[Cynthiana Democrat.]

It was the general impression that the Masons had a picnic at Carlisle, Tuesday, but the Carlisle Democrat says, "Better still, the brass band brigade rendered sweet music that filled the hearts and thrilled the minds and hearts of every one with new hopes in the immortal choir beyond the peaks of bright expectancy in the great eventuality." It must have been awful.

PROPOSALS will be received, to be opened at 2 o'clock p. m., July 12, 1902, for the sale to the United States of a suitable site, centrally and conveniently located, for the Federal building to be erected in Maysville, Ky. A one-half acre lot, approximating 130 by 150 feet is required. Each proposal must be accompanied by a diagram of the land, showing the widths of adjacent streets and alleys, the grades and the character of foundations obtainable, etc. Any improvements on the land must be removed by the vendor within thirty days after written notice, and the vendor shall pay all expenses connected with the conveyance of title and deeds of conveyance. The right of first refusal is reserved. Each proposal must be sealed and marked "Proposal for Federal building site at Maysville, Ky." and mailed to the SECRETARY OF THE TREASURY (SUPERVISING ARCHITECT), Washington, D. C. H. A. TAYLOR, Assistant Secretary.

It is said that the Indiana conference has a pastor that is anxious to be sent to the Kentucky conference, and the transfer will in all probability be made.

SIMPSON-BALLINGER.

Popular Young Couple Married This Morning—Wedding Took Place in Cincinnati.

A wedding that came as quite a surprise to many friends of both parties was that of Miss Edith Ballinger, the popular bookkeeper at Barkley's shoe store, to Mr. Charles J. Simpson, local manager for the Standard Oil Company.

Accompanied by Mrs. Thomas M. Russell, they left on the 5:43 train this morning for Cincinnati, where the marriage was solemnized shortly after their arrival.

After a short bridal tour Mr. and Mrs. Simpson will be at home to their host of friends on East Fourth street.

The bride is the oldest daughter of the late J. M. C. Ballinger, and is one of Maysville's popular and estimable young ladies. She was Sponsor for the Maysville Lodge of Elks, at the recent reunion in Louisville.

A host of friends of the happy couple unite in congratulations and good wishes.

DIED MONDAY.

David Atkinson Passed Away at Lexington After an Illness of Several Months.

A telegram to relatives announced the death of Mr. David Atkinson Monday afternoon at the asylum in Lexington. His health had been failing a year or so. He was under treatment for a time at a sanitarium in Cincinnati, but the physicians pronounced his case a hopeless one, and he was then committed to the asylum where he gradually declined, death coming to his relief Monday afternoon.

He was forty-six years of age, and was the youngest son of the late David and Jane L. Atkinson. He is survived by one brother, George, and one sister, Mrs. W. C. Pelham.

The remains were brought here this morning and taken to the home of his brother on West Third street where the funeral service will be conducted to-morrow morning at 10 o'clock by Rev. Dr. Taylor. Interment in the Maysville Cemetery.

Fine Herd of Shorthorns.

[Paris Democrat.]

One of the finest herds of shorthorns in the State is the property of W. R. Gill, of Washington, Mason County. There are about sixty finely bred animals in the herd, and a more highly bred lot could not be found. One beautiful animal is a yearling heifer by Braithwaite Bud and out of Starlight Geneva 2nd. Good judges pronounce her the best shaped and best colored heifer they have ever seen. Mr. Gill is preparing them for exhibition at the Kentucky fairs, and the man that produces a herd that can beat this one will have to get something superior to any yet shown in Kentucky.

Mr. Richard Williams is night operator now at the telephone exchange during the absence of Mr. Abner McPherson who was called to Junction City by the illness of his son.
